NEWARK WOMAN IS WINNER OF PRIZE IN LETTER CONTEST

Mrs. Evelyn M. Williams of West Locust street was awarded first prize in an electrical contest conducted by a Cleveland paper, receiving a check from that periodical together with a fine letter. The contest was for letters on the uses of electricity. Mrs. Williams in her letter referred to the fact that electricity had solved a very difficult problem for her from the fact that her two sons have installed an electrical den in the attic of their home and spend all their spare time there and that when she wants them she has to do so by pushing an electrical button, one ring for one of the boys and two rings for the other.

The electrical editor who awarded the prize in speaking of Mrs. Williams' letter said: "We have often heard, as a technical expression the term 'electrical control,' but have always felt heretofore that it referred to complicated apparatus or commercial machinery. However, today one of the papers electrical contest participants describes an entirely new kind of electrical control—the electrical control of live young American boys.

"According to the winner of the first award, Mrs. Williams, the system works out in great style. So far as the electrical editor knows, the process has not been patented and is open to the public."

Gossip From State House

Columbus, March 5.—Recess of the general assembly next Thursday, March 20, was said today to depend upon whether the house finance committee is able to get the governor's biennial budget before the assembly in time for action this week.

Another factor, threatening to interfere with the proposed recess and adjournment, was the demand of financially embarrassed cities and school districts for some immediate relief in the form of a tax measure, permitting them to raise more money to pay off their old debts.

Mayors and other city officials were gathering here today for a conference on the Galbreath senate bill and other measures, proposing relief for the debt-burdened municipalities.

It is known that Governor Cox is anxious for the legislature to adjourn this week, but he will not sanction adjournment until the important administration measures are disposed of.

There has been talk of a special session to consider the question of relief for cities, but this will be opposed by Republicans and probably by many Democrats, who argue that this is one of the most pressing emergencies before the present session.

The emergency tax bill will be a special order of business before the house tomorrow afternoon, and is expected to pass, with some corrections. The provision making the president of the board of county commissioners, county auditor and county treasurer has been held to be faulty, because the commissioners and treasurers' terms expire at the time the revision board is to be in session.

Republicans in the house will not oppose the passage of the tax bill, but they were lining up today for a fight on the Bliss highway bill, reorganizing the state highway department. Republican leaders were claiming the support of a number of Democrats in the fight on the Bliss bill, which places the highway department in the control of a commission of three, to be appointed by the governor, and according to the Republicans, permits the administration to "rip up" the department and fill the offices with Democrats.

The minority will support the Mansfield substitute, providing for a bipartisan board of four members to control the state highway department. Republican opposition is also expected to the appropriation bill carrying out recommendations made by the governor in his budget. Restoration of salaries of many state offices to what they were before the Willis administration reduced them will be opposed by the Republican minority. The finance committee will recommend the appropriations practically as outlined in the governor's budget, it is said.

Christian Scientists have not yet given up hope of the passage of the Terrell bill, and will make another attempt this week to relieve the unfriendly public health committee of the measure. The house voted last week to permit the bill to die in the public health committee.

Look, Mother! If Tongue is Coated Give "California Syrup of Figs."

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels.

When cross, frettable, feverish or breath is bad, stomach sour, look at the tongue mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Music

TO THE MUSIC CLUB.

It is probable that before long every prettier in the Newark Women's Music Club, will be in touch with artists and organizations from which will be chosen those to be on the concert program. It is not known what place to suggest in this column the greatest attraction for the symphony concert, which undoubtedly will cost a lot of money to get this organization to Newark but the women who compose the Music Club have successfully brought other undertakings to a conclusion, and would this one if they tried to make it a success.

The price would be, but if a visit could be arranged while the orchestra was in town, at a time when Newark would be on the radio, it is probable that Mr. Arthur Judson, the manager, formerly of Granville and Newark, would strain every nerve to make the performance a success. This is a great organization under a great conductor, and the editor of this department having twice seen the orchestra and his wonderful orchestra could vouch for the effect it would have upon the musical world.

Writing in the New York Sun shortly after the performance of the Mahler Symphony by the Philadelphia Orchestra, in New York, last year, W. Henderson said: "If Philadelphia believes that Mr. Stokowski is essential to the performance of the Mahler Symphony, it is not known what place to suggest in this column the greatest attraction for the symphony concert, which undoubtedly will cost a lot of money to get this organization to Newark but the women who compose the Music Club have successfully brought other undertakings to a conclusion, and would this one if they tried to make it a success."

Amusements

AUDITORIUM. "The Tempters" Today. Sensational, stupendous, spectacular, it is the only dramatic production which adequately describes "The Tempters," the big howler that plays the Auditorium theater today.

It is "The Tempters" real thing you've ever had the pleasure of witnessing. The largest company of artists, the greatest amount of scenery, the handiwork, best balanced chorus of feminine beauty ever assembled and more good lines and music than you have ever heard. Every number a novelty, every line a scream, every scene a spectacle and every song a hit. More than this, it's the speediest, snuggest, classiest good old-fashioned attraction you have ever seen, the kind they've been talking for years of giving you, the kind you've hankered after but have never seen until Manager Charles Baker backed his name and judgment for the big hard card he's playing. "The Tempters," "The Barium & Baiting" of all.

There are many big novel features seen in this attraction, one being the great Zallah, who is seen in the classiest of all dances. Then there is the travesty on "Uncle Sam's Cabaret" and the singing alone is well worth the price of admission. Seats are selling rapidly and as usual the Auditorium is sure to hold capacity crowds today.

"Piggin Island." At the Auditorium tomorrow those two popular Metro stars, Harold Lockwood and May Allison, who will be seen in an adaptation of Harold McGee's famous novel "Piggin Island." The scenery, situations, comedy and sensational stuff, is wonderful and the management believes that all will enjoy this production, because many of the scenes are taken in the water and sun. In the cast are seen Lester Cuneo, Fred Wilson, Lillian Hayward, "Doc" Pomeroy Cannon, Lukie Ayema and others. The 15th episode of "The Crimson Stain Mystery" will also be seen.

Auditorium Tuesday. Manager Fenberg's feature for Wednesday and Thursday will be Mary Pickford at the head of her own production, "The Guilty Woman." The cast will be seen Warren Cook, Kathryn Browne Decker, Edward Roseman, Joel Day, Matt Moore and others. The action of the play takes place on an island off the western coast of Scotland, where great sorrow is caused to the people by a severe storm at sea resulting in the loss of the chief and several members of the clan MacFarish.

According to the law of the old island, pretty Margaret MacFarish succeeds her father as head of the clan, and in her sweet way rules the fishermen and their families with a spirit of kindness.

"The Guilty Woman." "The Guilty Woman," the emotional dramatic four acts will be the attraction at the Auditorium on Friday night, Mar. 9.

Direct from a tour of the principal cities of the east, this play has been called a second "Madame X." It is a story of a young girl who through ignorance took the mission of her life. For twenty years after her marriage, she keeps secret from her husband the fact that she is the mother of a numerous family. The opening of the play will be chosen those to be on the concert program. It is not known what place to suggest in this column the greatest attraction for the symphony concert, which undoubtedly will cost a lot of money to get this organization to Newark but the women who compose the Music Club have successfully brought other undertakings to a conclusion, and would this one if they tried to make it a success."

ing war against them or in adhering to their enemies, GIVING
THEM AID AND COMFORT."

The above definition of treason found in The Constitution of
the United States not only furnishes the legal test of that crime,
but also clearly points out a number of things which citizens of the
United States ought, in good morals, to avoid. All the more so
ought officers of the government avoid doing any of these things.

That the United States has an enemy, active, able and unscrup-
ulous, no sane man can doubt after the publication of the Zimmer-
man letter. It is equally impossible to see how the conduct of
Senators Stone, LaFollette, Clapp, Cummins, Gronna, Kenyon, Nor-
ris, Works, Kirby, Lane, O'Gorman and Vandaman can be any thing
less than giving aid and comfort to that enemy.

Some of these men may have been misled by hatred of
some of the European combatants, some by a leaning toward some
of the same combatants, and some by a mawkish sentimentality but
whatever their motive the result is aid and comfort to the enemy
of our country.

Many of these men have earned the gratitude of the nation by
long and valuable service, but whatever the part may have been,
they have put a blot upon their reputations which many years will
not wash out.

THE NATION'S DISGRACE.

If the United States senators who
used their power Saturday night and
Sunday morning to tie the hands of
the president of the United States in
his duty to protect the rights of the
country and the lives of our citizens
had been in the pay of the German
war office they could have earned
such pay in no more effective way
than to do just as they did. By
their action they say in effect to the
outside world, "Germany may kill
as many United States citizens as
she pleases and so far as we are con-
cerned the president shall not have
the instrumentalities necessary to
stop the slaughter." The chances
are a hundred to one that the ac-
tion of these senators spells the
doom of more than one American
citizen now on the high seas, for it
says to the German war lords, "Go
ahead! The senate of the United
States will thwart any serious at-
tempt to restrain you."

All this is disgraceful enough in
any senator whatever, but what shall
one say of Senator Stone, of Mis-
souri honored by his party with the
chairmanship of the committee on
foreign relations, and thus under
double obligations to guard the na-
tion's rights and honor in its foreign
affairs? For more than four hours
on Saturday night he fought to kill
the bill to put into the president's
hands adequate power to safeguard
the rights of American citizens on
the sea and protect them against
such lawless slaughter as has again
and again been wreaked upon them.
This is the same Senator Stone who
came out with a pitiable apology for
the Lusitania slaughter before the
corpses of the men, women and chil-
dren thus slain were hardly cold.
And the man who had the kind of a
heart in his breast and the kind of a
head on his shoulders that would
allow him to do this is still toler-
ated as chairman of the senate com-
mittee on foreign relations, blocking
the president at every turn, though
even the most partisan of Republi-
can senators are loyally backing Wil-
son with all their strength. Bad
enough before, this becomes doubly
outrageous in view of the detection
of Zimmermann's plot to bring
Mexico and Japan into war against
the United States, incidentally prom-
ising a part of our country as pay

for their services. The only appar-
ent effect that this plot has had
upon Stone is to make him angry
that the president detected and ex-
posed it.

The indecency of this situation is
intolerable. The senate committee
on foreign relations must be reor-
ganized in harmony with the pres-
ident, in harmony with the over-
whelming sentiment of the people,
in harmony with loyalty to the
country and the safety of its insti-
tutions, its rights and the lives of
its citizens; in harmony with ordi-
nary common sense. The senate ma-
jority can no longer tolerate Stone
in such a position and not impeach
his own loyalty to sworn duty in this
time of crisis. There is all the more
reason that he should be deposed
from this chairmanship in the simple
fact that he has never in the past
shown any qualifications of states-
manship and ability such as to fit
him for so important a position, en-
tirely apart from his present dem-
onstrated inability to feel and act
as an American in dealing with open
violence and secret plots against ev-
erything for which the name Ameri-
can is supposed to stand. From ev-
ery corner of the land there should
go to Washington an overwhelming
demand for the retirement of Wil-
liam J. Stone from the committee
chairmanship which he has so sig-
nally disgraced.

THE MERCHANT'S SERVICE.

The home store is one of the con-
veniences and public services of the
town. A place may have good streets,
schools, and lights, yet if its stores
are behind the game, the whole
community suffers. The public is
inconvenienced and put to serious
expense to supply itself with neces-
saries.

There are some people who always
patronize distant stores for all im-
portant purchases. But in an emer-
gency, they run to the home store
with some trifling order. Then they
blame the merchant if he does not
have as complete a stock as a metro-
politan store would carry.

Such people are not doing their
share to build up their home com-
munity. They are pursuing a policy
which if adopted by everyone would
affect valuation of all real estate and
impair the facilities for good com-
munity living. The merchant car-
ries his share toward making this an
up to date town, only by the spirit
of loyal support from his towns-
people.

Those smart fellows who write
the articles urging farmers to keep
strict sets of books may not be able
to locate where they spent more
than half of their last week's pay
envelope.

The food speculators have unfor-
tunately forgotten that other years
are coming in which friendship is
quite a help in selling goods.

After reading the markets re-
ports, the landlady remarks that po-
tatoes never were so plentiful and
cheap as now.

According to the latest revela-
tions, it seems to be all fixed up
that the United States is to be an-
nexed to Mexico.

Anyway no extra acts have been
committed by the politicians (typ-
ing around in their gumshoes.

Did You Know

That Ponce de Leon sailed with
Columbus on his second voyage to
Hispaniola in 1493? He belonged
to an ancient Spanish family and
was a page to Ferdinand V. In
1512, advanced in years, but with
his love of adventure still unquenched,
he sailed from Porto Rico in

search of the mythical fountain of
youth, which was supposed to exist
in the Bahamas. Failing to find it
there, he set sail for Florida, where
he arrived on Easter Sunday. The
banks were covered with beautiful
foliage and flowers and he named it
"Florida," taking possession of the
peninsula in the name of his
sovereign.

But they can't write any better

NEWSPAPER STANDARDS.

(Ohio State Journal.)

W. R. Hearst, the big newspaper
man of New York, has been dis-
gusted by the insinuations that the
American press has been bought up
by either of the parties to the war
or by those interested in any way
with its prosecution, and thus he
writes about it:
"The facts are that the standards
of newspaper ethics are the highest
of any business or profession in the
world; certainly higher than the
ethics of the politicians, who are
for the most part lawyers. A law-
yer will take a fee to represent any
side of any case, to defend a crim-
inal, to protect a public enemy, but
no newspaper man of any position
could be influenced directly or in-
directly, by money or by favor, by
business or by politics, by threats or
by calumny to do or to advocate any-
thing that he did not believe to be
right."

There is no charge that a news-
paper so despises as that it is
bought up to advocate any propo-
sition that is out of line with its
own faith. We have been in the
newspaper business for 50 years
and we never knew of an editor
getting a dollar for the expression
of an opinion. We have heard of
two or three, but never believed
what we heard. Newspaper stand-
ards are the highest of any business.

been placed in a humiliating atti-
tude before the world. Comfort and
aid have been lent to those un-

non-existent cowardice, and lack of
patriotism among the people of the

America and Japan.

While Japan resents legislation by
Pacific coast states that discrimin-

any justification for predictions of

the expressions of the Government
have been friendly. Persons, Ameri-

are talking about, assure us that
Japan intends to remain on amicable
terms with us. The Japanese must
also be credited with sagacity, and
they understand that in population

WHO NEEDS PLUTO WATER

AMERICA'S PHYSIC

In every walk of life—whether it is banker or book-keeper, student or stenographer—there are hundreds of people who are constipated and don't know it.

IF A MAN has a toothache, he takes immediate steps to stop it. If a woman has a headache, she seeks instant relief. But these same people frequently are constipated and don't realize it.

Here is the reason: Regularity of bowel movement is frequently mistaken for freedom from constipation; yet, so-called regular bowel movements are frequently incomplete.

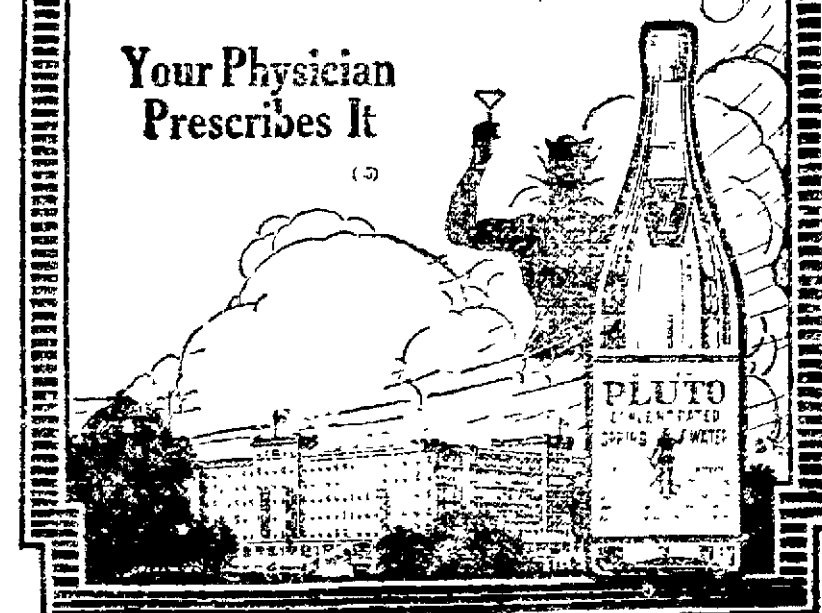

What is the result? The accumulation of decayed matter becomes an insidious foe to health, unless thoroughly eliminated. There is, then, an urgent need for a periodical flushing of the system and there is nothing better for this purpose than PLUTO Water, Nature's own remedy and America's Physic.

PLUTO Water is bottled at French Lick Springs and embodies health-giving properties that bring thousands of visitors to the Springs each year. So remember, PLUTO is more than a mere laxative; aside from its splendid value as a purge, PLUTO is widely recommended as a wonderfully helpful curative agent in the treatment of kidney, liver and stomach troubles, rheumatism and nervous disorders.

If you can't go to French Lick Springs—the home of America's Physic—you can buy PLUTO Water at your druggist's—and you should, for your health's sake.

There is only one PLUTO Water. Look for the little red devil on every bottle. It is there for your protection.

Miss Edith M. Brown, daughter of Mr. and Mrs. M. M. Brown of 415 Thackeray street, recently participated in a musical given at the home of Mr. and Mrs. J. H. Moore at Lansing, Mich., by the U and I club, and a Lansing paper says of her singing: "The music was given by Miss Edith M. Brown, soprano. Mrs. Gertrude Clark, pianist, and Cyril Davis, violinist. The first suite of songs by Miss Brown, including 'The Gypsy Train,' 'Boat Song,' and 'Sweet Little Woman of Mine,' were an especially happy medium for the charming quality of her voice, while her heavier numbers comprising Schubert's 'The Wanderer,' and 'Hark! Hark! the Lark!' were given with a richness of tone and brilliancy of range seldom combined in even professional singers."

One year in heaven.
In loving remembrance of our darling Frances Redman who departed this life March 3, 1916, age 12 years, 10 months and 13 days. Her dear sweet smiles no more we see.

And yet what comfort 'tis to know
She reigns in heavenly bliss
Heaven now retains our treasure
Earth her lonely casket keeps
And the sunbeams love to linger
Where our darling ones sleep.

GOVERNMENT IS LEFT HELPLESS BY THE SENATE

(Continued From Page 1)

physical endurance. The result in this case is a complete paralysis alike of the legislative and of the executive branches of the government. "This inability of the senate to act has rendered some of the most necessary legislation of the session impossible, at a time when the need for it was most pressing and most evident. The bill which would have permitted such combinations of capital and of organization in the export and import trade of the country as the circumstances of international competition have made imperative—a bill which the business of the whole country approved and demanded—has failed. "The opposition of one or two senators has made it impossible to increase the membership of the interstate commerce commission or give it the altered organization necessary for its efficiency. The conservation bill, which should have released for immediate use the mineral resources which are still locked up in the public lands, now that their release is more imperatively necessary than ever, and the bill which would have made the unused water power

of the country immediately available for industry have both failed, though they have been under consideration throughout the sessions of two Congresses and have been twice passed by the house of representatives.

"The appropriations for the army have failed, along with the appropriations for the civil establishment of the government, the appropriations for the military academy at West Point, and the general deficiency bill. It has proved impossible to extend the powers of the shipping board to meet the special needs of the new situation into which our commerce has been forced or to increase the gold reserve of our national banking system to meet the unusual circumstances of the existing financial situation.

"It would not cure the difficulty to call the Sixty-fifth Congress in extraordinary session. The paralysis of the senate would remain. The purpose and the spirit of action are not lacking now. The Congress is more definitely united in thought and purpose at this moment. I venture to say that it has been within the memory of any man now in its membership. There is not only the most intense patriotic purpose but the objects are clear and definite. But the senate cannot act unless its leaders can obtain unanimous consent. Its majority is powerless, helpless. In the midst of a crisis of extraordinary peril, when only

definite and decided action can make the nation safe or shield it from war itself by the aggression of others, action is impossible. "Although as a matter of fact the nation and the representatives of the nation stand back of the executive with unprecedented unanimity and spirit, the impression made abroad will of course be that it is not so and that other governments may act as they please without fear that this government can do anything at all. We cannot explain. The explanation is incredible.

"The senate of the United States is the only legislative body in the world which cannot act when its majority is ready for action. A little group of willful men, representing no opinion but their own, have rendered the great government of the United States helpless and contemptible.

"The remedy? There is but one remedy. The only remedy is that the rules of the senate shall be so altered that it can act. The country can be relied upon to draw the moral. I believe that the senate can be relied upon to supply the means of action and save the country from disaster."

At the same time the president authorized the further statement that what rendered the situation even more grave than it had been supposed that it was, was the discovery that, while the president, under his general constitutional powers, could do much of what he had asked Congress to empower him to do, it had been found that there were certain old statutes as yet unrepealed which may rise insuperable practical obstacles and may nullify his power.

The old law referred to by the president was adopted by Congress in 1819 and referred to the resistance of American merchantmen against the attacks of privateers and pirates, but excluded from vessels which might be so attacked "a public armed vessel of a nation in amity with the United States." Technically, Germany is not at war with the United States, and submarines are "public armed vessels" of Germany. The president's statement followed a conference at the White House between Mr. Wilson, Secretary McAdoo, Postmaster General Burleson, Colonel E. M. House, Vance C. McCormick, chairman of the Democratic national committee, and Secretary Tumulty.

It will be noted that the president referred to the opposition group as containing 11 senators, whereas 13 who had opportunity to do so failed to sign the manifesto. Senator Penrose did not sign, but said he would have voted for the armed neutrality bill had opportunity been afforded. It was assumed that the president had eliminated also Senator Stone in his list, because Stone announced he opposed the bill but did not oppose a vote.

PRESIDENT DECLARES IN SPEECH FAITH IN UNITY OF AMERICA

(Continued From Page 1)

tain that the part we wished to play was the part of those who mean to vindicate and fortify peace. We have been obliged to arm ourselves to make good our claim to a certain minimum of right and of freedom of neutrality since it seems that in no other way we can demonstrate what it is we insist upon and cannot forego. We may even be drawn on, by circumstances, not by our own purpose or desire, to a more active assertion of our rights as we see them and a more immediate association with the great struggle itself but nothing will alter our thought or our purpose. They are too clear to be obscured. They are too deeply rooted in the principles of our national life to be altered. We desire neither conquest nor advantage. We wish nothing that can be had only at the cost of another people. We have always professed unselfish purpose and we covet the opportunity to prove that our professions are sincere.

"There are many things still to do at home, the clarify our own politics and give new vitality to the industrial processes of our own life, and we shall do them as time and opportunity serve; but we realize that the greatest things that remain to be done must be done with the whole world for stage and in co-operation with the wide and universal forces for mankind, and we are making our spirits ready for those things. They will follow in the immediate wake of the war itself and will set civilization up again. We are provincial no longer. The tragic events of the thirty months of vital turmoil through which we have just passed have made us citizens of the world. There can be no turning back. Our own fortunes as a nation are involved, whether we would have it so or not.

"And yet we are not the less Americans on that account. We shall be the more Americans if we but remain true to the principles in which we have been bred. They are not the principles of a province or of a single continent. We have known and boasted all along that they were the principles of a liberated mankind. These, therefore, are the things we shall stand for, whether in war or in peace.

"That all nations are equally interested in the peace of the world and in the political stability of free peoples, and equally responsible for their maintenance; "That the essential principle of peace is the actual equality of nations in all matters of right or privilege;

"That peace cannot securely or just rest upon armed balance of power;

"That governments derive all their just powers from the consent of the governed, and that no other powers should be supported by the common thought, purpose or power of the family of nations;

"That the seas should be equally free and safe for the use of all peoples, under rules set up by common agreement and consent, and that so far as practicable, they should be accessible to all upon equal terms;

"That national armaments should be lifted and necessities of national order and domestic safety;

"That the community of interest and of power upon which peace must henceforth depend imposes upon each nation the duty of seeing to it that all influence proceeding from its own citizens meant to encourage or assist revolution in other states should be sternly and effectually suppressed and prevented.

"I need not argue these principles to you, my fellow countrymen; they are your own, part and parcel of your own thinking and your own motive in affairs. They spring up native amongst us. Upon this as a platform of purpose and of action we can stand together.

"And it is imperative that we should stand together. We are being forged into a new unity amidst the fires that now blaze throughout the world in their ardent heat we shall, in God's providence, let us hope, be purged of faction and division, purified of private interests and of party and of private humors shall stand forth in the days to come with a new dignity of national pride and spirit. Let each man see to it that the dedication is in his own heart, the high purpose of the nation in his own mind, ruler of his own will and desire.

"I stand here and have taken the high and solemn oath to which you have been audience because the people of the United States have chosen me for this august delegation of power and have by their gracious judgment named me their leader in affairs. I know now what the task means. I realize to the full responsibility which it involves. I pray God I may be given the wisdom and the prudence to do my duty in the true spirit of this great people. I am their servant and can succeed only as they sustain and guide me by their confidence and their council. The thing I shall count upon, the thing without which neither counsel nor action will avail, is the unity of America—an America united in feeling, in purpose and in its vision of duty, of opportunity and of service. We are to be aware of all men who would turn the tasks and the necessities of the nation to their own private profit or use them for the building up of private power; beware that no faction or disloyal intrigue break the harmony or embarrass the spirit of our people; beware that our government be kept pure and incorrupt in all its parts. United alike in the conception of our duty and in the high resolve to perform it in the

Does morning find you with a lame, stiff and aching back? Are you tired all the time—find work a burden? Have you suspected your kidneys? Newark people endorse Doan's Kidney Pills. You can rely on their statements.

Mrs. J. W. Thompson, 87 S. Second St., Newark, says: "I was so bad off with kidney trouble that I had to get up out of bed and walk the floor, my back pained me so badly. In this way, I lost my sleep and the next morning I felt weak and had dizzy spells, my bladder was affected and rheumatic twinges darted through my feet and hands. I suffered terribly. The joints of my fingers were stiff and twisted out of shape. My kidneys were in a weak and disordered condition, too and caused me a lot of distress. I felt tired and achy all over until finally I got Doan's Kidney Pills from R. W. Smith's Drug Store. The medicine fixed me up in good shape and of late I have been free from kidney trouble."

WILSON IS 28TH PRESIDENT; MOST OF THEM LAWYERS

Washington, March 5.—Woodrow Wilson is the twenty-eighth president of the United States, reckoning Cleveland's two terms as separate ones, because he was the only president twice who was not re-elected.

Virginia leads in the nativity of presidents. Eight of her sons, Washington, Jefferson, Madison, Monroe, William Henry Harrison, Tyler, Taylor and Wilson—have held the highest office in the gift of the nation.

Ohio has given six native sons to the presidency. They were Grant, Hayes, Garfield, Benjamin Harrison, McKinley and Taft.

Of all the vocations in life the law has furnished most presidents. Nineteen chief executives of the United States were lawyers at the time they were elected. Three are classified as statesmen; two as soldiers; two as farmers; one as a public official. Seventeen presidents have been college men; one was graduated from West Point, nine had no collegiate education.

English paternal ancestry has predominated among all the presidents. Fifteen were of English extraction. Six were Scotch-Irish, three were Scotch, two were Dutch, one was Welsh.

The youngest president, at the time of inauguration was Roosevelt, who was 48. The oldest was William Henry Harrison who was 68. Of all the presidents John Adams lived to the oldest age. He was 90 when he died.

NATIONAL COLORS USED FREELY UPON WILSON'S REQUEST

Washington, March 5.—The red, white and blue displaced all other colors in the scheme of decorations for President Wilson's inaugural. The green and white, and the mixture of gay colors of other years were entirely submerged in the display of national colors.

From every stand they fluttered, from every public building. The folds of the flag rippled from the crowded stands along the line of march as if in answer to the salute of the same colors borne by the marchers. The flag swung or drooped from balcony, window, and housetop. It fluttered in the hands of cheering spectators. It hung suspended in stately dignity thousands of homes. On the line of march and off the line of march, everywhere, the city displayed the flag. The court of honor at the White House where the president reviewed the marching army of celebration was smothered in the tri-color. It was the decoration, the only one, in President Wilson's second inaugural. President Wilson's stand, marked by the seal of the United States in color, followed the lines of the portico at the front of the White House with its fluted columns, and was much more elaborate than any other.

BRICK OPENS WAY TO JEWELRY STORE; TWO WATCHES MISSING

Hurling a paving brick through the large plate glass window of the Youngling jewelry store, (Post-robbers reached in and took three watches of a total value of about \$60, as near as Mr. Youngling can figure out. There may have been some stick pins and small jewelry taken but the watches were the principal items of loss. A finely jeweled Howard watch was not taken and it is supposed the robbers were frightened away. It is thought the window was broken between 4 and 5 o'clock Sunday morning, and it may have been even after 5 o'clock.

DOZEN SENATORS BLOCK PASSAGE OF BILL SUNDAY

lish the fact that the senate favored the legislation and would pass it if a vote could be obtained. Thirteen senators declined to sign the declaration, but one of them, Senator Penrose, Republican, of Pennsylvania, announced that he would have voted for the bill had opportunity been afforded him. The 12 who went on record with the 13 members of the house against granting to President Wilson the authority he asked from Congress in the crisis were:

Republicans — Clapp, Minnesota; Cummins, Iowa; Gronna, North Dakota; Kenyon, Iowa; La Follette, Wisconsin; Norris, Nebraska; Works, California—7.

Democrats — Kirby, Arkansas; Lane, Oregon; O'Gorman, New York; Stone, Missouri; Vardaman, Mississippi—5.

Associated with them in opposition to the armed neutrality bill were the following representatives, who voted against the house bill Thursday night:

Republicans — Benedict, California; Cary, Wisconsin; Cooper, Wisconsin; Davis, Minnesota; Helgeson, North Dakota; Lindbergh, Minnesota; Nelson, Wisconsin; Stafford, Wisconsin; Wilson, Illinois—9.

Democrats — Decker, Missouri; Shackelford, Missouri; Sherwood, Ohio—3.

Socialist—London, New York—1.

B. & O. AIDS FARMERS.

That the Baltimore and Ohio railroad is working on a plan to combat the high cost of living by increasing the production of foodstuffs in its territory, was the gist of an address made by W. W. Blakely, interchange commodity agent, recently before the Agricultural College Club, of Delaware College, at Newark, Del.

The plan which the railroad is following touches the food problem fundamentally in urging increased production of crops and giving the farmer every facility and guidance in marketing his produce.

You Can Keep Them Free from Colds Without Dosing.

These two fine boys have a "Little Bodyguard" to protect them against sudden attacks of cold or cold troubles. Their mother Mrs. C. C. Evinger, 1224 N. 6th St., Terre Haute, Ind., writes—

"I have tried your Vick's VapoRub on my two boys (who are nineteen months and three and one-half years old respectively), and have found it very satisfactory when they had the croup. The first application helped to loosen the phlegm, making them rest more easily, and they were able to go to sleep. VapoRub also helped them when they had severe colds. I can recommend it to all mothers."
